

# TrakSafe™ InReach SE+

## Rugged, satellite-based safety device for use in remote

If you have staff or contractors working off the grid, stay in touch with TrakSafe InReach SE+. In case of an emergency you can now send and receive messages between the user and the person in need via the Smartrak™ EyeQ™ Visual Intelligence Suite.

### Benefits

- ✔ Peace of mind when your staff are outside cellular range
- ✔ Increased safety for high risk lone workers and contractors
- ✔ Versatile communication with the ability to send free-form, 160-character text messages
- ✔ On-screen acknowledgment on the device when an SOS is received by EyeQ.
- ✔ Easy to locate the person carrying the InReach SE+ device by viewing GPS coordinates on the EyeQ map
- ✔ User friendly:
  - Colour screen and virtual keyboard with predictive text
  - Intuitive LED indicator for satellite availability
  - Audible message notification

### TrakSafe InReach SE+

- ✔ Specifically designed for lone workers outside of cellular range
- ✔ 2-way text messaging between designated EyeQ map users and lone workers
- ✔ Standard reply acknowledges that an SOS has been received

### Key Features

- ✔ Tracking and locating (at 10 minute intervals when moving and 30 minute intervals when stationary)
- ✔ Satellite coverage via the Iridium® Network
- ✔ Send and receive text messages
- ✔ Long lasting internal rechargeable lithium battery for ultimate convenience and portability. Up to 100 hours of battery life in 10 minute tracking mode with a clear view to the sky.
- ✔ The device can be linked to the Earthmate app on a mobile device.
  - Pairing TrakSafe InReach SE+ allows you to use your mobile device to send text messages from the Earthmate app.
  - It also allows you to download a map and view it on your mobile.
- ✔ IP67 rated - Designed for maximum durability in harsh environments (waterproof, dustproof, impact-resistant)

### Includes:
